

RELA Leadership Initiatives

Reaching Every Leader for Application

1. Leadership Development Tracks

Mission: To equip leaders with practical tools and biblical wisdom that strengthen their calling and expand their capacity to serve.

Description: RELA offers tiered leadership development pathways designed for every stage of growth—from emerging leaders to seasoned pastors. Each track includes workshops, training modules, and guided reflection assignments to ensure that principles are not only taught but also applied. Leaders will leave empowered to lead with confidence, clarity, and Christ-centered conviction.

2. Community Impact Projects

Mission: To move leadership training beyond the classroom and into the community through tangible acts of service and outreach.

Description: RELA leaders will collaborate on initiatives that bring visible change to the communities they serve. Whether through mentoring youth, organizing local food and resource drives, prison outreach, or neighborhood improvement efforts, participants will put leadership into practice. These projects ensure that leadership growth produces measurable Kingdom impact.

3. Mentorship & Networking Circles

Mission: To cultivate a culture of accountability, encouragement, and shared wisdom among leaders.

Description: RELA provides ongoing mentorship and networking circles that connect leaders across generations, denominations, and ministry contexts. Each circle is designed to foster relationships, share best practices, and provide encouragement in seasons of challenge. Through intentional mentorship, leaders gain the support they need to remain steadfast and fruitful in their calling.
